*"This seminar was a blessing from Heaven. This is not another slick way for someone else to "fill their pockets." We quickly realized a difference with Ministry Funding Solutions. This is a ministry to other ministries. Fred has a desire to see ministries succeed and not be crushed or sent off course by their need for funding. We only wish this type of seminar would have been available nineteen years ago when we started Peculiar People."*

## ENDORSEMENTS

*"I have known and worked closely with Fred Bumpass for over ten years. He is deeply committed to Christ and has a clear grasp of how ministries can increase their funding. I wholeheartedly support and believe in Ministry Funding Solutions. "*

Howard Dayton, Co-founder and CEO  
Crown Financial Ministries

*"Fred Bumpass is the real deal! Moreover, his fundraising skills are outstanding. I have known Fred both professionally and personally over the past 11 years. He is someone who has my utmost confidence in providing first class training. We use Fred for our Fundraising Symposiums at Ministry Ventures. "*

Boyd Bailey, CEO  
Ministry Ventures

*"I wanted to share the fantastic news about what the Lord is doing in our ministry. I have been praying about what I have been learning from you and I got a group of prayer warriors to pray everyday. In October I was \$5400 in the Red and looking at a decrease in salary. To God be the glory, three months later we are in the BLACK. My goal this year is that by January 1, 2008 we will be fully supported. Fred, for sixteen years I really struggled with the support issue, but thanks to you I have a new vision and excitement for being fully supported and funded."*

# How can we make such a promise?

## 3 Reasons:

1. We have developed a simple four-step process for sustained funding.
2. We have personally and successfully implemented this process for many years.
3. We have seen our seminar and coaching participants become fully funded after faithfully applying this process.

*"I was terrified of the idea of raising money, but the training was both incredibly encouraging and practical, giving me tools to seek the support of others in my ministry endeavors. Fundraising became much less daunting and instead very doable. I can't imagine not having had the training."*

Becky Kruse, The Guild
